

BREAST IMAGING COURSE

8.00 – 8.50

REGISTRATION

8.50 – 9.00

Prof. Dr. Alexandru Blidaru | Welcome and opening remarks

9.00 – 9.25

Assist. Prof. Dr. Ștefan Voiculescu

Anatomy of the mammary ducts through ultrasound examination in breast diseases

9:25 – 10.10

Assist. Prof. Dr. Angelica Chiorean

Ultrasound in invasive lobular carcinoma and ductal carcinoma in situ

10.10 – 10.35

Assist. Prof. Dr. Cristian - Ioan Bordea

Management of infraclinical breast lesions

10.35 – 11.15

COFFEE BREAK

11.15 – 11.45

Dr. Claudia Teodorescu

Rethinking mammography

11.45 – 12.15

Dr. Stavroula Kyriazi

The emerging role of MRI in breast cancer screening

12.15 – 12.45

Dr. Mirela Gherghe

Radioactive methods for sentinel node identification.

Current nuclear medicine techniques in breast imaging

13.00 – 14.00

REGISTRATION

PLASTIC SURGERY SESSION

IMPLANT BASED BREAST AESTHETIC BREAST RECONSTRUCTION

COORDINATOR - Dr. Constantin Stan

14.00 – 16.15

LIVE SURGERY - S CLINIC | **Prof. Dr. Suhan Ayhan, Dr. Benjamin Sarfati**

Aesthetic breast reconstruction, implant based delayed breast reconstruction after implant failure

16.15 – 16.30

COFFEE BREAK

16.30 – 16.45

Dr. Constantin Stan

Selection of breast implants (between measurement and subjective patient criteria)

16.45 – 17.00

Prof. Dr. Suhan Ayhan

Comparison of physical properties of implants surface “what is the impact on clinical outcomes”

17.00 – 17.15

Prof. Dr. Stefano Pompei

Polyurethane implants mythology and long term results (pocket location – tips and tricks)

17.15 – 17.30

Dr. Benjamin Sarfati

Immediate breast reconstruction with prosthesis and adjuvant radio therapy

17.30 – 17.45

Prof. Dr. Stefano Pompei

Role of fat grafting and the oncological implications in breast surgery

17.45 – 18.00

Dr. Benjamin Sarfati

Reconstruction of the infra-mammary fold

18.00 – 18.15

Dr. Constantin Stan

Reconstruction of the contralateral ptotic breast using multiplane mastopexy with superior pedicle and “inversed T” scar

18.15 – 18.30

Prof. Dr. Stefano Pompei

Our current concepts for mastopexy from aesthetic to reconstructive surgery of the breast

18.30 – 19.00

Dr. Constantin Stan

Discussions. Conclusions

19.00 – 21.00 | COCKTAIL OFFERED BY NEOLIFE

13.00 – 14.00

REGISTRATION

RADIOTHERAPY AND MEDICAL ONCOLOGY SESSION

14.00 – 14.30

Prof. Dr. Ion Cristian Chiricuță

The role of radiotherapy in the treatment of locally advanced breast cancer

14.30 – 15.00

Dr. Mircea Savu, Dr. Amalia Contantinescu

The role of unconventional fractionings in breast cancer radiotherapy

15.00 – 15.20

Dr. Liviu Stoleru

An update of controversies on postmastectomy radiotherapy

15.20 – 15.40

**Prof. Dr. Elvira Brătilă, Dr. Diana Comandașu, Dr. Alina Bordea, Dr. Diana Mihai,
Dr. Mihaela Radu**

Genetic testing for breast cancer - impact on guiding the therapeutic approach

15.40 – 16.10

Assoc. Prof. Dr. Mihaela Dănciulescu, Dr. Amelia Drăcea

Resistance and sensitivity to anti-HER2 therapies in HER2+ metastatic breast cancer

16.10 – 16.40

COFFEE BREAK

16.40 – 17.10

Prof. Dr. Tadeusz Pienkowski

Breast cancer systemic treatment

17.10 – 17.30

Dr. Daniela Zob

Oligometastatic breast cancer - is it curable?

17.30 – 18.00

Dr. Mădălina Drăgănescu

Life threatening adverse events of breast cancer systemic therapy

18.00 – 18.30

Dr. Oana Kloos

New systemic treatments for endocrine therapy modulation in breast cancer

18.30 – 19.00

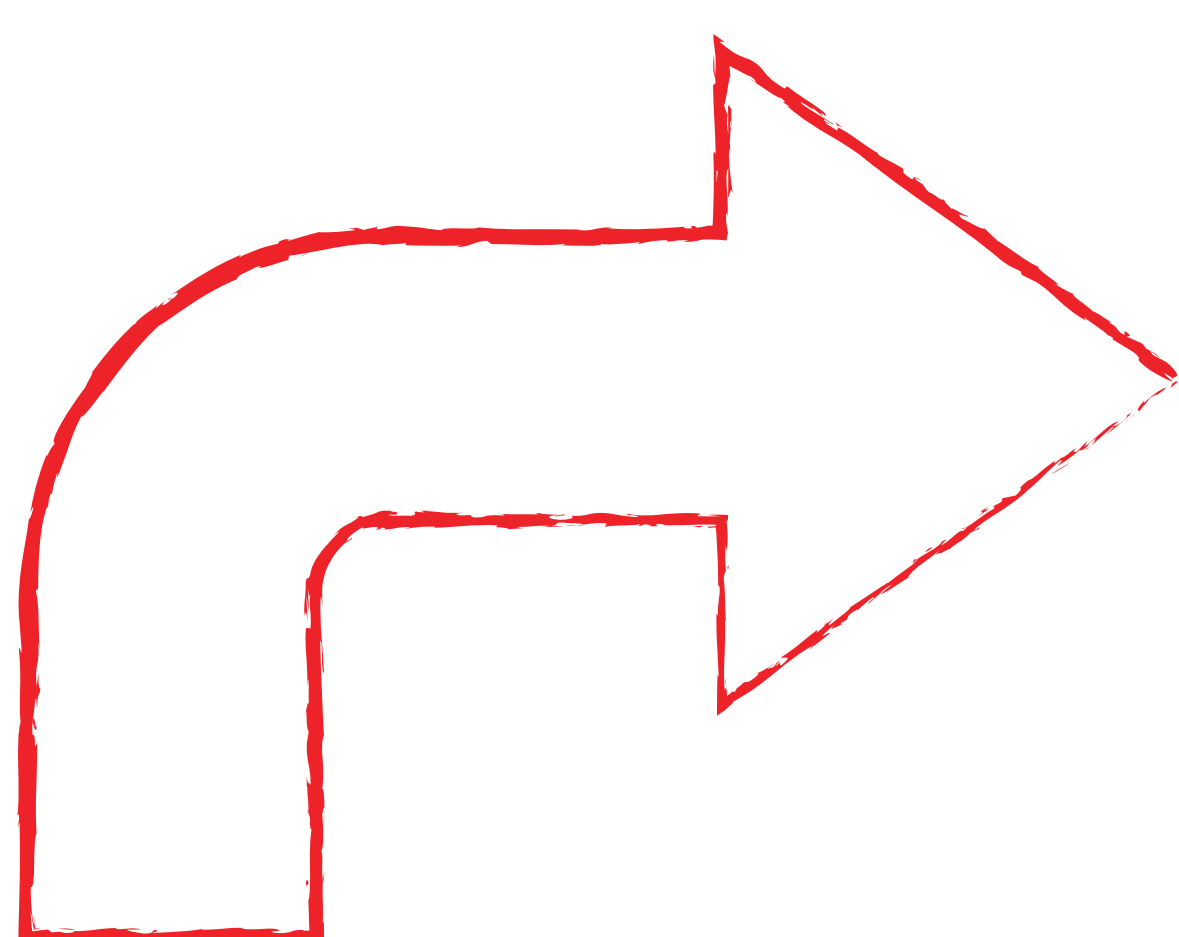

Dr. Dan Jinga

Triple negative breast cancer: from immunology and molecular biology to new systemic treatments

19.00 – 21.00 | COCKTAIL OFFERED BY NEOLIFE

Is Breast Cancer Surgery Really Shrinking?

Modern Management of Breast Lesions.

7.30 – 8.50	REGISTRATION
8.30 – 8.50	Assist. Prof. Dr. Angelica Chiorean The importance of imaging technique correlations in breast cancer diagnosis
8.50 – 9.10	Assoc. Prof. Dr. Radu Cristian Jecan Oncological and clinical conditions associated with autologous and alloplastic breast reconstruction
9.10 – 9.30	Dr. Dragoş Zamfirescu Surgical algorithm in breast reconstruction after mastectomy
9.30 – 10.05	Dr. Andrii Zhygulin Oncoplastic breast conserving surgery – classical and new techniques; Complications in oncoplastic breast conserving surgery
10.05 – 10.30	Prof. Dr. Nuh Zafer Canturk Biomarkers for breast cancer: surgeon view
10.30 – 11.00	Prof. Dr. Omar Youssef Therapeutic mammoplasty for advanced breast cancer
11.00 – 11.30	COFFEE BREAK
11.30 – 11.50	Prof. Dr. Mehmet Bayramicli Breast reduction: my journey through the techniques
11.50 – 12.10	Prof. Dr. Atakan Sezer From bench to bed oncoplastic surgery in breast cancer
12.10 – 12.30	Prof. Dr. Stefano Pompei The “skin sparing” mastectomies and their impact on the reconstructive outcomes
12.30 – 12.50	Prof. Dr. Dan Hershko Is there need for intraoperative assessment of sentinel lymph nodes in breast surgery?
13.00 – 14.00	OFFICIAL OPENING CEREMONY
14.00 – 15.00	LUNCH BREAK
15.00 – 15.20	Prof. Dr. Frederik Wenz IORT with intrabeam, a radiation platform: evidence on breast cancer and experience in Mannheim University
15.20 – 15.50	Prof. Dr. Christoph Andree How to correct bad BCT results with autologous tissue
15.50 – 16.10	Prof. Dr. Dan Hershko De-escalation of breast cancer surgery
16.10 – 16.40	Prof. Dr. Bahadır Gulluoglu Precision medicine: way to individualized loco-regional treatment
16.40 – 17.10	Prof. Dr. Alexander Mundinger Preoperative breast imaging for staging including the potential role of ABUS
17.10 – 17.30	COFFEE BREAK
17.30 – 17.45	Prof. Dr. Alexandru Blidaru Immediate breast reconstruction with implants
17.45 – 18.00	Assist. Prof. Dr. Mihai Lesaru Multimodal imaging in loco-regional assessment of breast cancer
18.00 – 18.20	Dr. Constantin Stan Breast implant today, between facts and fiction – my personal journey
18.20 – 18.40	Prof. Dr. Suhan Ayhan Breast restoration after implant failure in breast reconstruction
18.40 – 19.00	Dr. Benjamin Sarfati Robotic nipple sparing mastectomy
19.00 – 21.00 GALA DINNER	

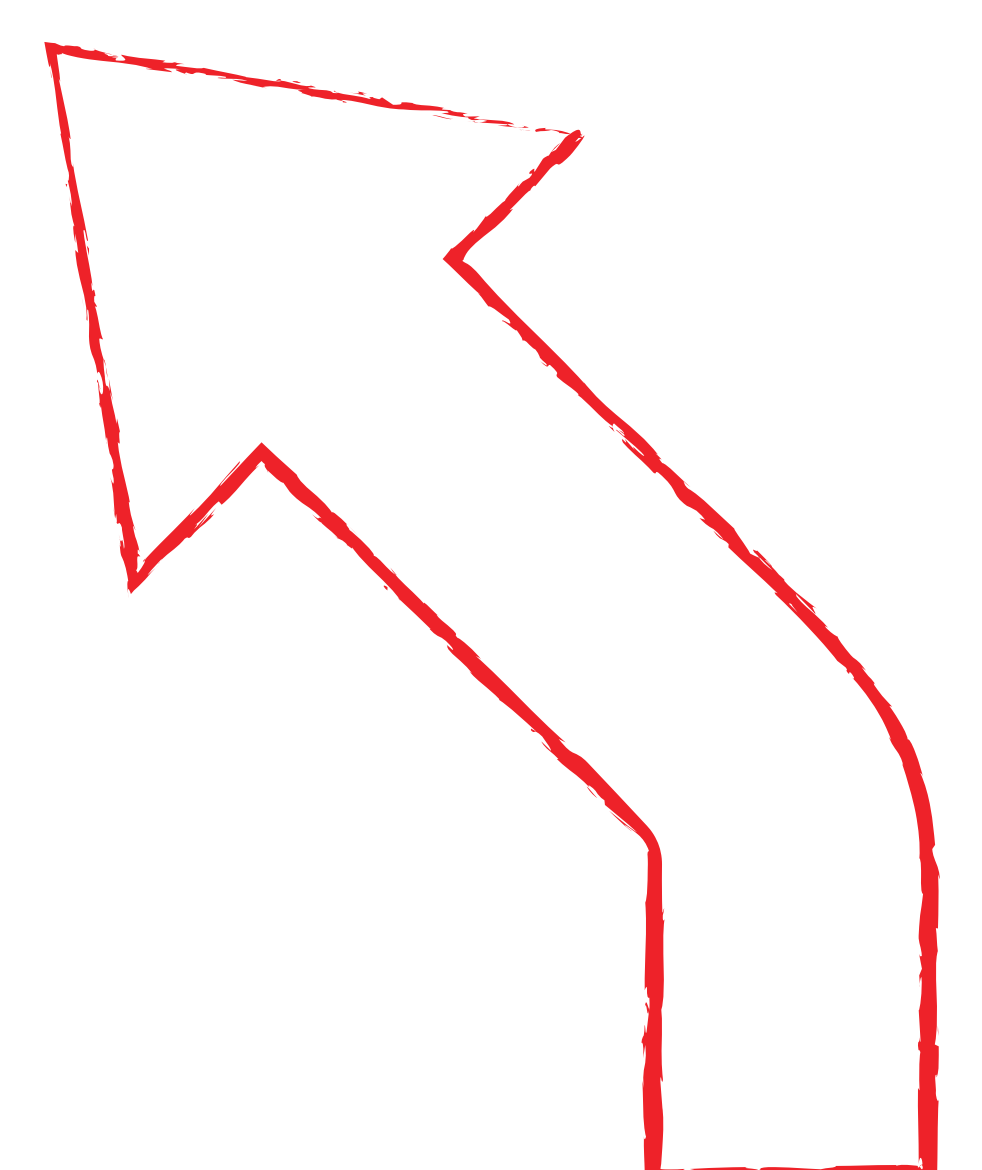

PATHOLOGY SESSION

HOT TOPICS IN BREAST PATHOLOGY- SLIDE SEMINAR

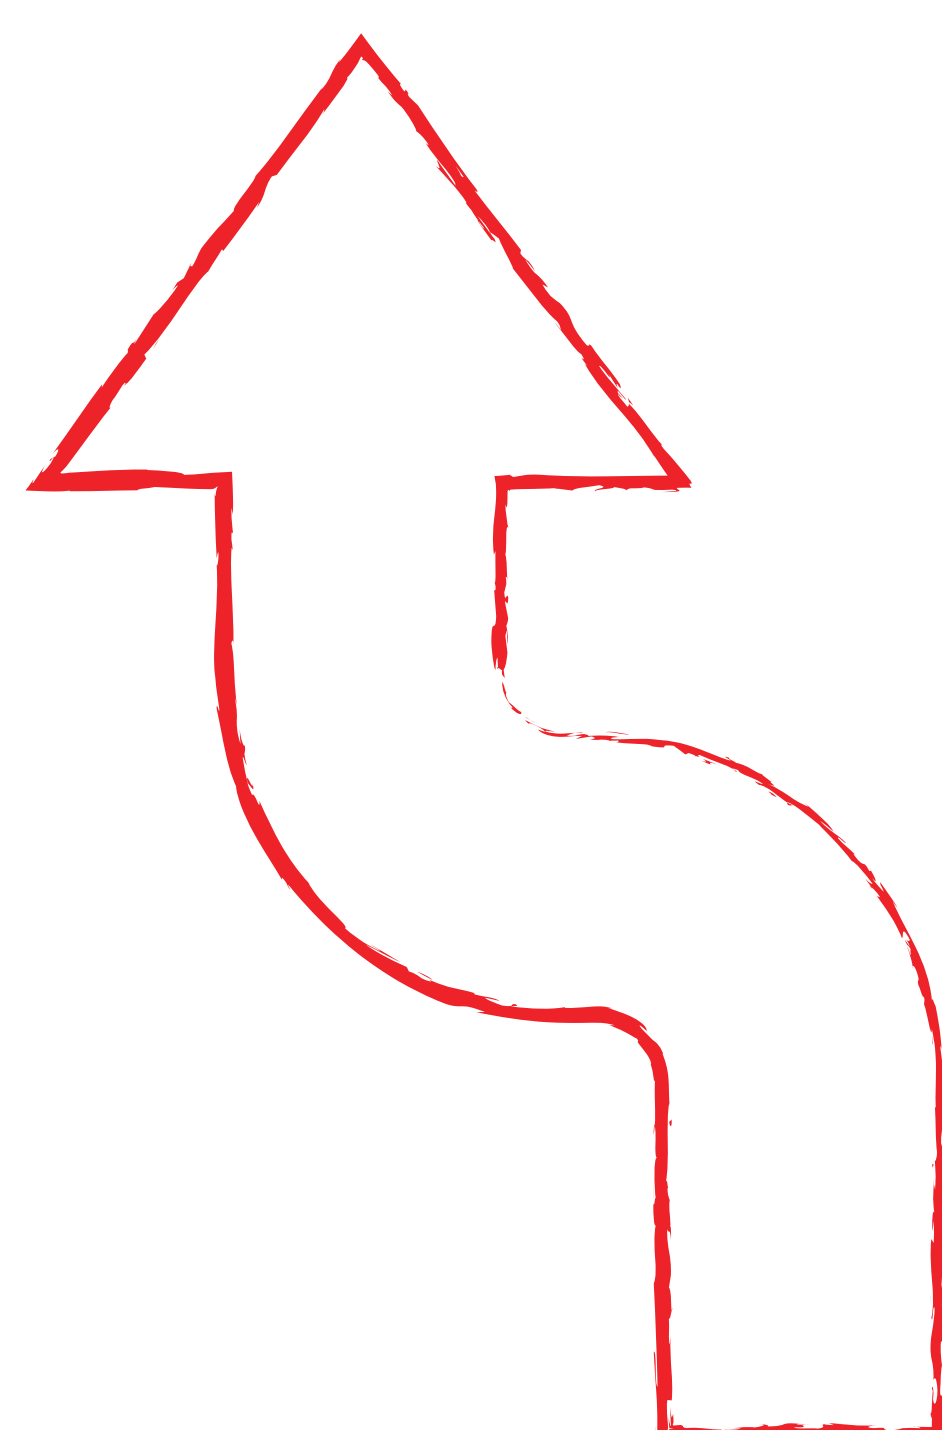

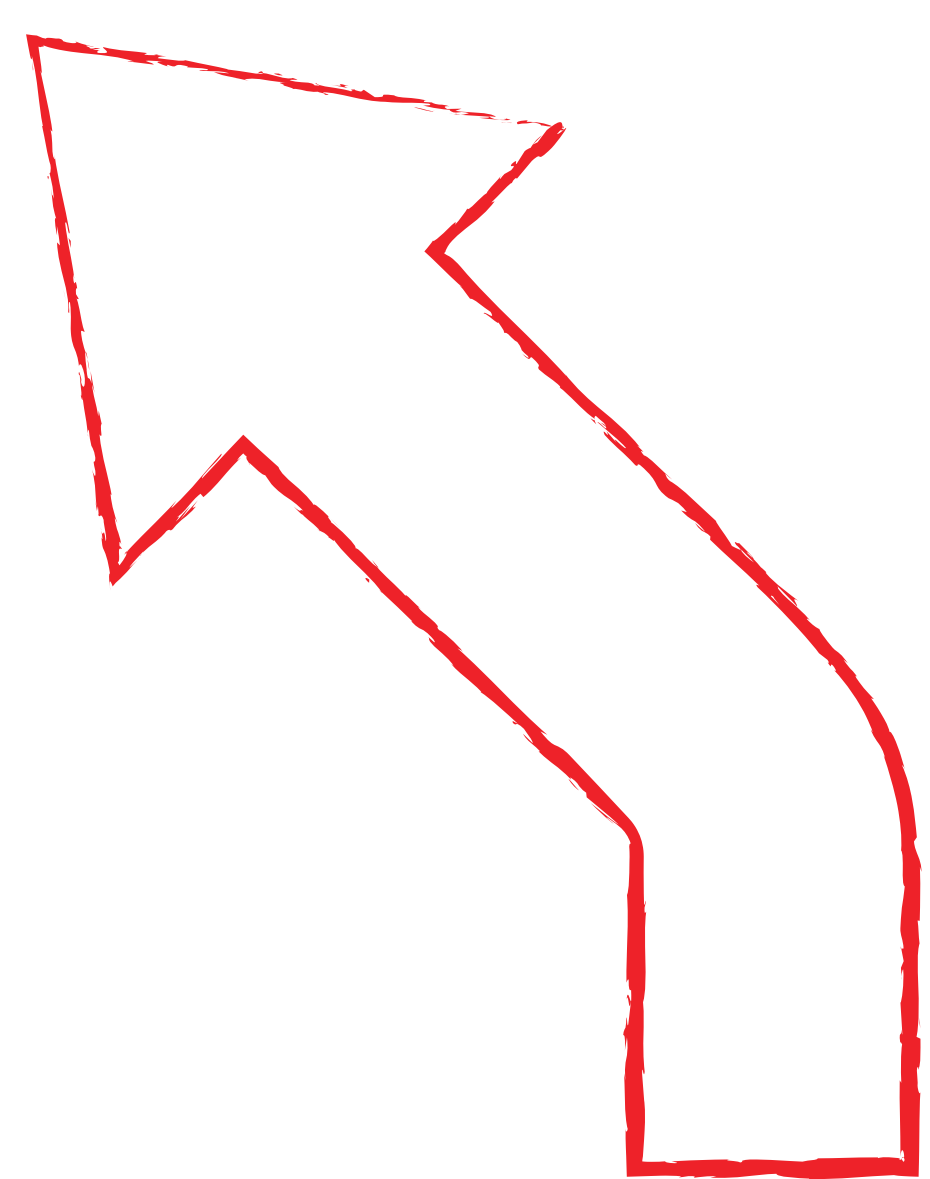

Prof. Dr. Simona Stolnicu, Prof. Dr. Isabel Alvarado-Cabrero

9.00 – 9.30	Prof. Dr. Simona Stolnicu Ductal proliferative lesions
9.30 – 10.00	Prof. Dr. Simona Stolnicu Pseudoinfiltrative lesions of the breast
10.00 – 10.30	Prof. Dr. Simona Stolnicu Slide seminar: low grade adenosquamous carcinoma, florid lobular neoplasia
10.30 – 10.45	COFFEE BREAK
10.45 – 11.15	Prof. Dr. Isabel Alvarado-Cabrero Sentinel lymph node. Pathologic approach
11.15 – 11.45	Prof. Dr. Isabel Alvarado-Cabrero Core needle biopsy. Radiologic-pathologic correlation
11.45 – 12.15	Prof. Dr. Isabel Alvarado-Cabrero Slide seminar: papillary lesion, phyllodes tumor with lymphoma
12.15 – 12.30	Prof. Kohei Homma AHCC: evidence-based nutritional immunotherapy for integrative cancer care
12.30 – 12.50	Dr. Camelia Ștefănescu Nutritional approach, supplements and lifestyle of the patient with breast cancer

Is Breast Cancer Surgery Really Shrinking?

8.00 – 9.00	SRCSO ANNUAL MEETING
9.00 – 9.30	Av. Marius Raita, Av. Bogdan Popescu Medical malpractice
9.30 – 9.50	Şef de Lucrări Dr. Silviu Voinea Are there still controversies in the anatomy of the breast?
9.50 – 10.05	Dr. Marian Țiclea Aesthetic goals in treatment of pseudogynecomastia
10.05 – 10.30	Dr. Dana Jianu Possibilities and limits in reconstructive surgery postmastectomy based on biomaterials, composite or with fat graft
10.30 – 11.00	COFFEE BREAK
11.00 – 11.20	Dr. Claudia Teodorescu Lobular breast carcinoma: a challenging imaging diagnostic
11.20 – 11.40	Nikolaos Tsoulos Genetics and genomics in breast cancer
11.40 – 12.00	Prof. Mohamed El Shinawi From operation room to research lab
12.00 – 12.20	Şef de Lucrări Dr. Zorin Crăiniceanu, Prof. Dr. Tiberiu Bratu Profilactic mastectomy and primary reconstruction: indications, limits
12.20 – 12.50	Dr. Radu Ionescu Surgical strategy in immediate breast reconstruction with implant/expander
12.50	Prof. Dr. Alexandru Blidaru Closing remarks

Is Breast Cancer Surgery Really Shrinking?
